<sup>1</sup> Dry production.

<sup>2</sup> Includes lease condensate.

<sup>3</sup> Net generation, i.e., gross generation less plant use.

<sup>4</sup> Includes net electricity generation from wood, waste, solar, and wind. Data for the United States also include other renewable energy.

R=Revised. P=Preliminary.

Notes: • Data in this table do not include recent updates for the United States (see Table 1.2) or for

other countries (see <http://tonto.eia.doe.gov/cfapps/ipdbproject/IEDIndex3.cfm>). • See Note 1, "World Primary Energy Production," at end of section. • Totals may not equal sum of components due to independent rounding.

Web Page: For related information, see <http://www.eia.doe.gov/international>.
