

Figure 1.3 Primary Energy Consumption by Source

Production and Consumption, 1949-2008

By Major Source, 1949-2008

By Source, 2008

¹ Petroleum products supplied, including natural gas plant liquids and crude oil burned as fuel. Does not include the fuel ethanol portion of motor gasoline—fuel ethanol is included in "Biomass."

² Conventional hydroelectric power. Sources: Tables 1.2 and 1.3.
