^a Includes Private business entities except Fuel Providers, which are shown separately in this table. Also includes municipal (local) government agencies except Transit Agencies, which are shown separately in this table.

Notes: Excludes gasoline-electric and diesel-electric hybrids. Excludes E85 vehicles used by private individuals (non-fleet users) because most of those are believed to be in use as traditional gasoline-powered vehicles. Vehicles in Use do not include concept and demonstration vehicles that are not ready for delivery to end users.
