

**Table V8. Estimated Number of Alternative Fueled Vehicles in Use, by Fuel Type and User Group, 2007**

| User Group   | Compressed Natural Gas (CNG) | Electric <sup>a</sup> | Ethanol, 85 Percent (E85) <sup>b</sup> | Hydrogen   | Liquefied Natural Gas (LNG) | Liquefied Petroleum Gas (LPG) | Other Fuels <sup>c</sup> | Total          |
|--|------------------------------|-----------------------|--|------------|-----------------------------|-------------------------------|--------------------------|----------------|
| Federal Agencies                                   | 9,286                        | 100                   | 112,560                                | 0          | 34                          | 308                           | 0                        | 122,288        |
| State Agencies                                     | 9,133                        | 1,977                 | 60,393                                 | 2          | 6                           | 7,750                         | 0                        | 79,261         |
| Electric Fuel Providers                            | 4,302                        | 518                   | 4,141                                  | 7          | 6                           | 705                           | 0                        | 9,679          |
| Natural Gas Fuel Providers                         | 5,161                        | 40                    | 671                                    | 0          | 60                          | 119                           | 0                        | 6,051          |
| Propane Fuel Providers                             | 4                            | 0                     | 0                                      | 0          | 7                           | 10,292                        | 0                        | 10,303         |
| Transit Agencies                                   | 9,268                        | 138                   | 708                                    | 5          | 604                         | 557                           | 0                        | 11,280         |
| Other Private & Municipal Governments <sup>d</sup> | 77,237                       | 52,957                | 185,911                                | 209        | 2,064                       | 138,523                       | 3                        | 456,904        |
| <b>Total</b>                                       | <b>114,391</b>               | <b>55,730</b>         | <b>364,384</b>                         | <b>223</b> | <b>2,781</b>                | <b>158,254</b>                | <b>3</b>                 | <b>695,766</b> |

<sup>a</sup> Excludes gasoline-electric and diesel-electric hybrids.

<sup>b</sup> Excludes E85 vehicles used by private individuals (non-fleet users) because most of those are believed to be in use as traditional gasoline-powered vehicles.

<sup>c</sup> May include P-Series fuel or any other fuel designated by the Secretary of Energy as an alternative fuel in accordance with the Energy Policy Act of 1995.

<sup>d</sup> Includes Private business entities except Fuel Providers, which are shown separately in this table. Also includes municipal (local) government agencies except Transit Agencies, which are shown separately in this table.

Notes: Vehicles in Use do not include concept and demonstration vehicles that are not ready for delivery to end users.
