| Weighted-Average Price | 50.70 | 40.01 | 38.95 | 45.88 |

Notes: Totals may not equal sum of components because of independent rounding. Weighted-average prices are in nominal U.S. dollars. Natural UF₆ is uranium hexafluoride. The natural UF₆ and enriched uranium quantity represents only the U₃O₈ equivalent uranium-component quantity specified in the contract for each delivery of natural UF₆ and enriched uranium. The natural UF₆ and enriched uranium weighted-average price represent only the U₃O₈ equivalent uranium-component price specified in the contract for each delivery of natural UF₆ and enriched uranium, and does not include the conversion service and enrichment service components.
