

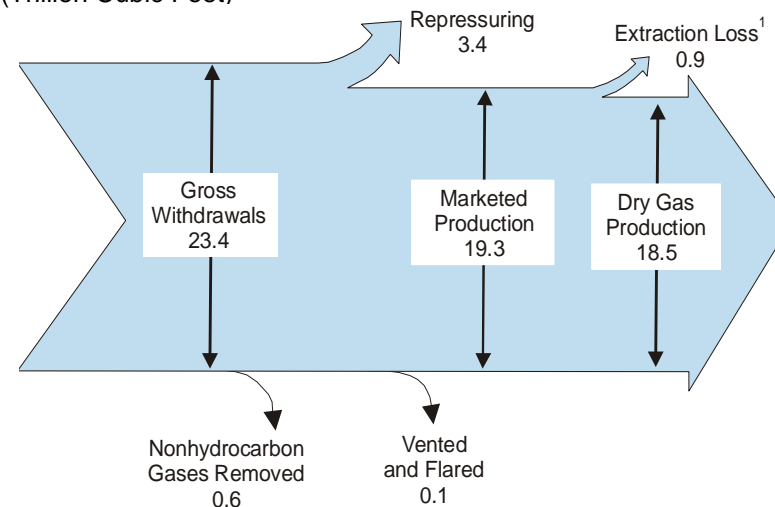

## Figure 6.2 Natural Gas Production

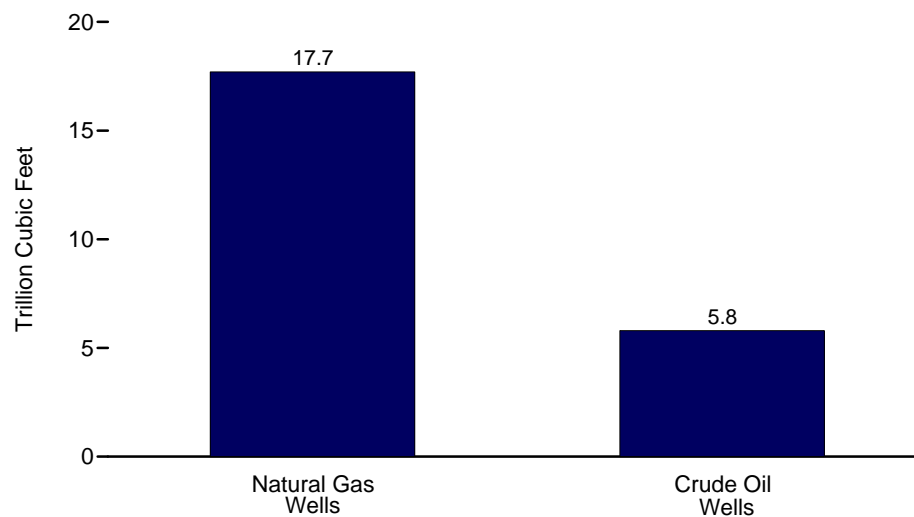

### Gross Withdrawals and Dry Gas Production, 1949-2006

### Production Flow, 2006 (Trillion Cubic Feet)

### Gross Withdrawals by Well Type, 2006

<sup>1</sup> Volume reduction resulting from the removal of natural gas plant liquids, which are transferred to petroleum supply.

Note: Because vertical scales differ, graphs should not be compared.
