^a Due to consumption weighting, the U.S. average residential price is \$21.27 per million Btu and the U.S. average commercial price is \$21.13 per million Btu.

— = No consumption.

Where shown, (s) = Physical unit value less than 0.5, Btu value less than 0.05, or expenditure value less than

0.05.

Note: Totals may not equal sum of components due to independent rounding.

Sources: Data sources, estimation procedures, and assumptions are described in the Technical Notes.
