<sup>a</sup> Includes fuel ethanol blended into motor gasoline.

<sup>b</sup> State motor gasoline prices are the same for the commercial, industrial, and transportation sectors.

<sup>c</sup> Due to consumption weighting, U.S. average commercial price is \$21.69 per million Btu, U.S. average industrial price is \$21.94 per million Btu, U.S. average transportation price is \$21.97 per million Btu, and the U.S. average price of

all sectors is \$21.97 per million Btu.

Where shown, (s) = Btu value less than 0.05.

Note: Totals may not equal sum of components due to independent rounding.

Sources: Data sources, estimation procedures, and assumptions are described in the Technical Notes.
