Coal InfoCard 2005

Energy Information Administration

U.S. Electric Power Industry Net Generation by Fuel Type, 2005

Thousand Megawatthours, Percent

U.S. Coal Production by Coal Producing Region, 2005

Million Short Tons, Percent

Key U.S. Coal Statistics, 2005

Largest Producing Coal Mine	Black Thunder/Thunder Basin Coal Company LLC
Leading Producing Coal Company	Peabody Coal Co
Largest Coal-Producing State	Wyoming
Average Number of Miners	404,319 thousand short tons
U.S. Exports	79,283 miners
U.S. Imports	49,942 thousand short tons
Year End Coal Stocks	30,460 thousand short tons
Total Production	144,305 thousand short tons
Brown Coal	1,131,498 thousand short tons
Hard Coal	83,942 thousand short tons
Regional Production	1,047,556 thousand short tons
Central Appalachian	235,297 thousand short tons
Northern Appalachian	140,023 thousand short tons
Southern Appalachian	21,347 thousand short tons
Illinois Basin	92,883 thousand short tons
Powder River Basin	429,996 thousand short tons
Uinta Region	62,145 thousand short tons
