Welcome Board of Public Utilities, State of New Jersey

The current SHOPP reference period is Mar 26, 2018, and your submission is **due by Noon on Tuesday**

This week is a holiday cycle, with data collections Tuesday and price submission due by Noon EST on Wednesday. If data are ready before Noon Wednesday, please submit data as soon as they are available.

Tips and reminders:

- REVIEW DATA: Please review respondents' previously reported prices (as they are listed in the IDC) prior to calling respondents. Knowing what prices they have been reporting will help give you an idea of what to expect. Use the general benchmark of +/- 0.15. If the current price they quote deviates from the previous price by +/- 0.15, they should be asked to verify that the price they are reporting is correct or explain the deviation.
- SUBMITTING DATA: Please remember that the Review 'Prices Before Submit' button at the bottom of the Main Form page enables you to see prices that are beyond the expected range, and must be pressed to get to the 'Submit' button itself. After you have reviewed any prices that have been flagged, please press the 'Submit' button to send your data.
- HOW DATA ARE BEING ENTERED: If you are entering all your company data on a spreadsheet and then into this system, you might consider using this application as a CATI system instead. Upon making phone calls to companies, have the application open and on the record of the company you are calling. As you receive price data, enter them directly into the IDC.
- DOCUMENTING INFO. CHANGE: Changes to contact information for individual companies or your state office can be made through the Change Co. Contact Info. and Change State Contact Info. links on the Main Form. Email the SHOPP Operator any changes made to the system as well.

Contact Information

Technical problems using the system should be directed to EIA Technical Support at (202) 586-8959. Their hours of operation are 7:30 a.m. - 5:00 p.m. EST.
